**Trak D Locker**

**NEW FITMENT: ROH Trak D & Trak D Locker Steel wheels**

ROH Trak D & Trak D Locker steel wheels are engineered, tried and tested in the toughest outback conditions in Australia, surpassing both Australian and international testing standards.

Now is the time. Ditch the standard look and opt for a set of ROH Trak D or Trak D Locker steel wheels for your 4WD, without doubt the best choice in quality steel wheels.

The ROH Trak D owes its rugged look to its muscular D shape holes and overall simplicity in design, while the ROH Trak D Locker range takes it one step further and offers a hard core 4WD beadlock look. This competition off road beadlock style incorporates bright decorative bolts around the perimeter of the wheel.

In addition you have the option of adding our new centre caps to put this finishing touch on your vehicle. These are a desirable option if you want a smarter on road appearance. They are cleverly held in place by the wheel nuts and made from durable impact UV resistant plastic.

Available in super tough matt black powder-coat finish, you can rely on ROH Trak D & Trak D Locker steel wheels to deliver outstanding outback reliability, on or off the highway.

For extra peace of mind, through exhaustive testing to Australian Standard AS1638, we offer a Lifetime Structural Warranty on our entire range of heavy-duty Trak D style wheels, including when fitted in conjunction with a GVM+ suspension upgrade kit.

Available in 16 and 17 inch sizes in a variety of fitments to fit most popular 4WD's, in-stock now so contact our sales staff today for price and availability.
